

Louis Berger

## LOUIS BERGER COMPANY AND BERGER FAMILY SUPPORT FOR EDUCATION

Within the broader scope of the Louis Berger company and employee giving, education is one of our special focus areas and we are proud to continue the legacies of founder Dr. Louis Berger and Fredric Berger for supporting personal and professional development through education. The Berger Family, the Louis Berger company, and soon the Berger Charitable Foundation, Inc., support educational endeavors around the world, from Rutgers University and the New Jersey Institute of Technology in New Jersey to Kabul University, the American University of Afghanistan, the International Road Federation and others.

### LOUIS BERGER COMPANY SUPPORT

# RUTGERS

Edward J. Bloustein School  
of Planning and Public Policy

#### **Louis Berger Graduate Fellows Program, The Edward J. Bloustein School of Planning and Public Policy, Rutgers University**

In 2009, the company established the Louis Berger Graduate Fellows Program at the Edward J. Bloustein School of Planning and Public Policy at Rutgers University. Following an application and evaluation process, up to four Bloustein School graduate students are selected who are working toward master's degrees in city and regional planning or in public policy for a comprehensive fellowship award that provides financial support during their second year of study. Each fellow also completes a full-time summer internship assisting Louis Berger project teams on infrastructure assignments around the world. Since 2010, 28 Bloustein graduate students have been awarded fellowships. As part of their internship experience, Louis Berger Fellows for 2016 participated as project team members working in France, Panama, Washington, D.C., and Qatar. Between 2009 and 2016, the fellowships have been funded annually by the company for graduate students currently enrolled at the Edward J. Bloustein School of Planning and Public Policy at Rutgers University.

2010:	\$97,000
2011:	\$97,000
2012:	\$97,000
2013:	\$97,000
2014:	\$97,000
2015:	\$52,000
2016:	\$55,000

### **Louis Berger Group Endowed Scholarship, New Jersey Institute of Technology**

In 2013, the Dr. Louis Berger Endowed Fund was established by the company to provide financial assistance to NJIT undergraduate students majoring in Civil or Environmental Engineering. Recipients follow an application process to be considered. Kenneth Torres was the 2015 recipient, Camilo Arteaga was the 2016 recipient, and Tuan Nguyen and Yusef Elmonayery were the 2017 recipients of the Louis Berger Group Endowed Scholarship. This is a company-funded endowment for undergraduate students currently enrolled at the New Jersey Institute of Technology.

2012: \$100,000  
2013: \$100,000  
2014: \$100,000

### **Louis Berger Graduate Internship and Fellowship Program, New Jersey Institute of Technology**

In 2014, NJIT, in cooperation with the Louis Berger Group, established a six-year special graduate internship and fellowship program for students pursuing a Master's degree in Civil Engineering, Environmental Engineering, Architecture, Engineering Management, Mechanical Engineering and Industrial Engineering. Areas of focus include environmental services, transit, highways and bridges, aviation, and energy, as well as economics, policy, and management activities. This program gives graduate students the opportunity to receive tuition funding while pursuing a Master's degree at NJIT as well as to conduct professional work with Louis Berger during summer internships at one of its international offices. The 2015 recipients were Said Ouabi and Walid Bouabid, the 2016 recipients were Amir Goharpey and Prashanth Bangalore Muralidhar, and 2017 recipients were Hardik Patel and Takudzwa Benox Mugabe. This is a company-funded fellowship program for graduate students currently enrolled at NJIT.

2015: \$26,458  
2016: \$27,554  
2017: \$28,695  
2018: \$29,883  
2019: \$31,120  
2020: \$32,408

### **Science and Technology Enrichment Program (STEP), New Jersey Institute of Technology**

In late 2012, in an effort to encourage high school students to pursue higher education, Louis Berger provided funding to the development of STEP, which aims to foster students' appreciation of science and technology. The program, which is taught by NJIT faculty, offers courses like Computer Animation and Introduction to Robotics: Design & Programming. A total of 400 students graduated in May 2013, December 2013, April 2014 and May 2015. Funding has ended and new corporate sponsors are being sought to continue the program. This was a company-funded program for high school students from New Jersey.

2012: \$100,000

### **Celebration Scholarship Fund Raising Events, New Jersey Institute of Technology**

Since 2013, the Louis Berger company has supported NJIT's annual "Celebration" scholarship fund raising event with a donation.

2013: \$10,000  
2014: \$10,000  
2015: \$2,000  
2016: \$2,000

### **The Louis Berger Cultural Center, American University of Afghanistan**

The Louis Berger company has been a major partner to the American University of Afghanistan since its founding in 2006. It is the first and only private, not-for-profit, non-partisan, co-educational institution of higher learning in the country. The firm also provided a donation to establish the Louis Berger Cultural Center, a modular space designed to host exhibits highlighting Afghanistan's rich cultural history.

### **Friends of the American University of Afghanistan**

The Louis Berger company also supports the American University of Afghanistan via Friends of the American University of Afghanistan by attending the International Public Service Awards Dinner annually.

2015: \$1,000  
2016: \$1,000

### **Society of American Military Engineers Scholarship Program**

There are two name scholarships endowed with the Society of American Military Engineers (SAME). The two scholarships represent one-time payments/commitments (self-sustaining) and apply to the SAME New York City Post. Approximately 200 scholarships are awarded annually by SAME to students at 70 colleges and universities. The criteria for scholarships selection: the student must be a U.S. citizen, enrolled as a full-time student, and pursuing a degree in engineering or related discipline. Institutions receiving financial support from the Louis Berger scholarships include Stevens Institute of Technology and NJIT.

1980: \$10,000  
1998: \$10,000

### **International Road Federation Scholarship Program**

The Louis Berger company has been a supporter of the International Road Federation for over 20 years with company officials holding senior leadership positions with the organization. In 2016, the company contributed to a scholarship program to support international undergraduate and graduate students attending U.S. universities which is consistent with the company's support to the education of international students studying engineering. Emmanuel Kofi Adanu of Ghana, pursuing a Ph.D. in civil engineering at the University of Alabama, was the recipient of Louis Berger's 2016 scholarship.

1992: \$10,000  
1993: \$5,000  
2013: \$175  
2016: \$5,000

## **DR. LOUIS BERGER AND FREDRIC BERGER FAMILY SUPPORT**

### **Louis Berger International Scholar Award, New Jersey Institute of Technology**

In 1997, Dr. Louis Berger established the Louis Berger International Scholar Award at NJIT. The award is intended for students pursuing graduate education in fields consistent with the worldwide activities of the company. These fields cover most majors offered by NJIT but students in Architecture, Chemical Engineering, Civil Engineering, Electrical Engineering, Environmental Engineering, Industrial Engineering, Transportation, and Management generally have preference. Priority is given to a new MS or PhD international student who enrolls for the first time in the fall semester. To date, the program has provided scholarships to 12 students. Xiaolu Wang, a doctoral student from China, was named the 2013 recipient of the Louis Berger International Scholar Award; Zhong Sun, a Master's candidate in mechanical engineering from China was named the 2014 award recipient; Omoghene Ovuakporie, a Master's candidate in architecture from Nigeria, was the 2015 award recipient, Sherri Ann Tim Kee, a Ph.D. candidate in chemical engineering from Trinidad and Tobago was the 2016 award recipient and Yuan Zhu, a Ph.D. candidate in chemical engineering from China was the 2017 award recipient. This is a Berger Family endowment for graduate students currently enrolled at the New Jersey Institute of Technology.

1997: \$300,000

### **Louis Berger Fellowship, Massachusetts Institute of Technology (MIT)**

The Berger family personally supports higher education through the Louis Berger Fellowship Fund at MIT. The fellowship provides financial assistance to graduate and Ph.D. students who have demonstrated high academic achievement. In December 2013, the MIT Department of Civil and Environmental Engineering announced the recipients of the current fellowship: Nicolas Bain and Bing Qiuyi Li, both Ph.D. candidates studying structural mechanics. This is a Berger Family endowment.

Fund principal: \$510,949

### **Louis Berger Junior Professor of Civil and Environmental Engineering, Northwestern University**

In September 2013, Northwestern University welcomed Dr. George Wells as the Louis Berger Junior Professor of Civil and Environmental Engineering. Dr. Wells received his B.S. and B.A. degrees from Rice University in 2004, where he first became interested in environmental engineering research while developing water treatment applications. Dr. Wells joined the Department of Civil and Environmental Engineering at Stanford University, where he completed his M.S. (2006) and Ph.D. (2011). Dr. Wells is exploring research topics within the Civil and Environmental Engineering Department, across the university, and with local industrial or public utility partners. This is a Berger Family endowment established in 1989.

Fund principal: \$413,888

### **Louis Berger Chair of Civil and Environmental Engineering, Tufts University**

The Louis Berger Chair in Civil and Environmental Engineering was established in 1989 by Dr. Louis Berger. With his support Tufts has been able to encourage the creation of new knowledge, support discoveries in laboratories and classrooms, and foster a spirit of innovation across the university. Currently, Professor Steven C. Chapra, Ph.D. is the Berger Chair. Updates from the holder of the Louis Berger Chair in Civil and Environmental Engineering are typically sent in the summer from the professorship holder, outlining key activities and accomplishments during the prior academic year. This is a Berger Family endowment.

**The Berger Family Technology Transfer Endowment, Tufts University**

The Fred Berger family is a member of the *Friends of the Tisch Library* at Tufts University. The Fred Berger Family Technology Transfer Endowment was established in 1995 and supports the Digital Design Studio at Tisch Library under Director Laura Wood. This is a Berger Family endowment.

**International Road Federation Scholarship Program**

Dr. Berger has been a supporter of the International Road Federation for 25 years providing financial support over that period.

1992: \$5,000

1996: \$1,000

**September 10, 2017**
