Alongside Refueling, Fuel Operations & Maintenance
Louis Berger supports the development of new fuel terminals and pipelines and provides turnkey delivery and operations of fuel storage, bulk fuel products, fuel issue and inventory, and fuel system maintenance.

For more than half a century, Louis Berger has supplied fuel and fuel services to the U.S. government, state and local governments, and private industry. Leveraging the Louis Berger design and construction expertise, our professional staff is able to offer complete facility management services on long term fuel projects.

Louis Berger builds and operates fuel facilities. Further, we own and operate bulk/retail facilities and the complexities that these dual product designs bring.
Louis Berger is a $1 billion global professional services corporation that helps infrastructure and development clients solve their most complex challenges. We are a trusted partner to national, state and local government agencies; multilateral institutions; and commercial industry clients worldwide. By focusing on client needs to deliver quality, safe, financially-successful projects with integrity, we are committed to deliver on our promise to provide Solutions for a better world.

OUR FUELS OPERATIONS

Through our managed fuel contracts we are responsible for the issue, receipt, inventory management, testing and quality control, and distribution of over 200 million gallons of fuel annually.

- Hot/cold aircraft refueling
- Fuels issue/transfer by truck, pipeline & hydrant
- Ground fuel deliveries
- Receipt, storage, and accounting of fuel
- Fuels testing and quality control
- Automated service station operation
Tampa Defense Fuel Supply Point | United States
GOVERNMENT OWNED BULK STORAGE

Louis Berger is responsible for receiving, storing, shipping, and accounting for government owned petroleum products required in support of designated Department of Defense (DoD) activities. A large portion of our bulk storage contracts, involve shipment of Jet-A via pipeline, trucks and railcars providing product shipments to an assortment of DoD designated activities. In addition, Louis Berger is responsible for operating and performing the maintenance on each bulk storage facility to ensure safe and accurate receipt, storage, transfer, and issue of government owned petroleum products under our control.

Featured sectors:

- Managed 13 government bulk storage facilities
- 31.8M gallons of product storage
- Fuel issue & receipt
- Product additive injection
- Inventory control
- Dockside fuel handling
ALONGSIDE AIRCRAFT REFUELING

Louis Berger has been a provider of aircraft and ground refueling services since 1932 and clearly understands the importance of ensuring all fuel is properly handled, remains on-specification, and is ready for issue 100% of the time. We provide management, supervisory staff and labor fully capable of meeting the demands of aircraft fuel services and ground fuel services to exceed the performance standards set by our customers.

- Hot/cold aircraft refueling
- Ground fuel deliveries
- Manage a fleet of 37 airfield tanker trucks (3,000 - 8,000 gallons)
- 44,000 aircraft serviced per year
- 45M gallons of Jet-A issued annually
- 100% maintenance responsibility for all trucks
Louis Berger provides Contractor Owned/Contractor Operated (COCO) bulk & retail facilities in support of designated Department of Defense (DoD) activities. Louis Berger has 100% responsibility for the operation and maintenance of all constructed Aboveground Storage Tanks (ASTs) and associated systems.

- Design, build, operate and maintain fuel facilities
- 20 year contract duration
- Constructed 9 Bulk and Retail facilities to meet ground and aviation requirements
- Installed/built 48 product above ground storage tanks (5,000 - 300,000 gallons)
- 1.5M gallons of total product storage
- 100% operations and maintenance responsibility
RECURRING MAINTENANCE & MINOR REPAIRS

Louis Berger performs Recurring Maintenance and Minor Repairs Services to include Emergency Repair and Records Management for Defense Logistics Agency-Energy (DLA-E) capitalized petroleum systems and facilities on military installations worldwide in compliance with code, criteria, regulations, and laws.

- Currently provide service at 61 Army, Navy and Air Force installations
- Maintain and Repair Fuel facility sizes from 25,000 gallon retail site to 71M gallon bulk terminal
- Perform Quarterly, Semi-Annual and Annual inspections per DoD requirements
- Identify deficiencies, develop and execute repair Service Orders (IDIQ)
- Deploy multiple in-house maintenance & repair teams and leverage our subcontract partners to maximize responsiveness
- Utilize CMMS tracking system for inspections/repairs
Mr. Daniel Stoddard serves as Vice President and General Manager for Louis Berger’s Fuels Division, which provides into plane refueling services along with full life cycle construction, operation, long term maintenance of fuel systems.
